<b>Abstract</b>			
<p>The cosmetic of the present invention contains several supplementary materials and rush-nanometer silver powder as natural medicine. In the he natural medicine, the silver particles are spehircal ones of 1-100 nm size and most of them have size of 25 nm, surface Ag<sub>2</sub>O layer and core of Ag. The rush-nanometer silver powder has Ag content of 0.01-20 wt%, and the natural medicine accounts for 1-5 wt% of the consmetic. The product of the present invention can be used in treating bacterial infection of skin, fungal infection of skin, contact dermatitis, acne and other dermatosis and has high treating effect.</p>
